PRESS RELEASE

Integral Recognized Twice By Profit & Loss Magazine's 2010 Reader's Choice Digital Market Awards

— *Top Honors For Best Retail FX Platform and Best Algorithmic Trading System*

MOUNTAIN VIEW, Calif. (June 4, 2010) — Integral Development Corp (www.integral.com), a leading technology and application provider of FX trading solutions and services, today announced that it was recognized twice by Profit & Loss Magazine in the magazine's 2010 Reader's Choice Digital Market Awards. Integral won in the category of Best Retail FX Platform with FX Power Trader™, Integral's white label retail margin trading solution. It also took top honors in the category Best Algorithmic Trading System with FX Inside Alpha™, the most complete solution designed to take on the challenges of FX algorithmic trading.

"Third-party recognition is always the best validation, especially when it comes from the readers of one of the leading magazines that report on our business," said Harpal Sandhu, CEO, Integral Development Corporation. "Winning these two Reader's Choice awards is a great confirmation of the quality of our products and the value they bring to customers."

[FX Power Trader](#) is a complete white label, retail margin trading solution that includes strategies, advanced order types, charting, and market news. Deployed in combination with FX Grid®, banks and brokers can aggregate direct market access liquidity and deliver custom price streams to suit their clients' needs.

[FX Inside Alpha](#) is a solution powerful enough to launch algorithmic trading firms from scratch, or provide existing ones with the key building blocks that they require to get to the next level. An integrated development environment (IDE) included in the solution allows for complete customization and extension of FX Inside Professional™ applying standard Microsoft development environments. To have this depth and breadth of features bundled in one easy-to-use solution is a first for the foreign exchange industry.
